

**FHP Belt**

Classical profile light duty v-belts for light machinery, home appliances, farm machinery, shop equipment, fans, blowers, etc.

- \* Cooler running for longer life
- \* Low vibration for minimal noise
- \* Superior efficiency for improved performance

**Quality construction:**

- \* High tensile Vytacord® improves dimensional stability.
- \* Engineered rubber compound for maximum flex life.
- \* Molded cogs improve flexibility and heat dissipation.
- \* Backing is oil, ozone, and abrasion resistant for long trouble-free

4L370	\$11.28	4L470	\$13.44
		4L480	\$13.52

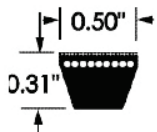

Traditional classical belts designed for operating at higher speeds over small diameter pulleys and short center distances. Also for use in multiple V-belt drives where high shock load and heavy duty loads are encountered.

**Quality Materials Make The Difference:**

- \* Vytacord® tensile members control stretch, so that it is minimal, predictable, and uniform.
- \* Our engineered heat and oil resistant rubber compound impregnated envelope fabric provides positive traction, maximum flexibility and extended wear resistance.
- \* Built to Matchmaker® specifications so all belts of the same size meet RMA matching specifications which eliminates matching problems, improves performance and increases service life.

**Torque Flex Belt**

Premium classical profile belt delivering increased HP over traditional classical belts. Designed for tough, small sheave diameter, high tension drives.

- \* Raw rubber edges contact the pulleys for increased horsepower ratings.
- \* Cogs allow for greater flexibility and heat dissipation
- \* Matchmaker® Belt Series for length uniformity.
- \* High strength, high horsepower capacity means fewer belt sheave grooves to deliver the same amount of horsepower.
